Introduction

The mission of the Ohio Board of Nursing is to actively safeguard the health of the public through the effective regulation of nursing care. The Board’s top priorities are to efficiently license the nursing workforce and remove dangerous practitioners from practice in a timely manner to protect Ohio patients. The Board regulates over 300,000 licenses and certificates, an increase from 223,000 in 2009.

Background

The Institute of Medicine (IOM) report, “The Future of Nursing: Leading Change, Advancing Health,” identifies data collection as a vital component for health care planning and policymaking. The Board is pleased that this data is used for health care planning and to grow Ohio’s health care workforce.

Data Collection and Reporting

The data questions are based on the nursing Minimum Data Set (Colleagues in Caring Project), core data questions developed by the HRSA National Center for Health Workforce Analysis, and the joint surveys conducted by the National Forum of State Nursing Workforce Centers and the National Council of State Boards of Nursing (NCSBN).
